

HOME STARTER KITS SUSTAINABILITY PLAN

A goal of the Home Starter Kits ministry of the Episcopal Church of the Resurrection is to create a sustainable system by which we can continuously provide our kits for people transitioning from dependent to independent living. In order to accomplish this goal, we will:

- ❖ Create, contact, and cultivate relationships with lists of individuals, faith communities, service organizations, and corporate sponsors who can provide financial and in-kind support on a regular basis (“Partners”).
- ❖ Create, contact, and cultivate relationships with lists of individuals, faith communities, service organizations, and corporate sponsors who can provide financial and in-kind support on a one-time basis (“Donors”).
- ❖ Confer continually with other similar ministries and groups to broaden our list of potential Partners and Donors.
- ❖ Create a long-term schedule of contacting individuals and groups so that we can refresh our contacts and presentations every three to five years.
- ❖ Update our budget, inventories, and other information annually to provide Partners and Donors with current information of our financial and in-kind needs.
